

Boekel Scientific offers a complete line of bench-top coolers/heaters for protocols for both heating and cooling of samples. They can be used for warming and defrosting or cooling of cell lines in vials or tubes or for cooling and heating of blood samples. Boekel Bench-Top Coolers/Heaters all feature an LCD temperature display that is easily seen throughout the lab and Peltier effect heat pumps that do not use compressors or CFC's. In addition, all Boekel Coolers/Heaters come with a two-year warranty for parts and labor.
